HOW TO USE THIS STUDY

The point of this study is to practice basic questions we can use anytime we try to study scripture. The **First Glance** section with the who/what/when/where/how questions is all about context; making sure we have thought through who was involved, what they were doing, and why these words were said to them or through them.

The **Digging Deeper** section is about asking why God wanted these specific verses to be preserved for us to read thousands of years later. What's important about them? What is God trying to teach us? And are there ways in which we can learn from them and apply them to our lives?

This becomes a journal you can save and look back on to remind yourself of what God taught you through these verses. You can use these questions with any passage of scripture; they are a great tool for personal quiet time and Bible study!
